at Your Fingertips*

TRANE®

Equipment Ordering

Order Equipment

Streamline your operation by placing orders for equipment anywhere at anytime.

Check Order Status

Save time by checking the status of your eBusiness order with your equipment supplier.

Configure Model Numbers

Look up models based on a partial model number or by product family. This speeds up your equipment selection when you are unsure of the exact model needed.

Parts Ordering

Order Parts

Save time by not having to wait at the parts counter or being placed on telephone hold.

Identify Parts by Model Number

You can enter a model number and identify the parts in a unit, which will save you time.

Check Parts Inventory

Check your supplier for parts availability without having to call.

Order Parts by Part Number

To save more time, if you know the desired part number, you can check inventory and order a part without having to select from a list.

Order From Affiliated Suppliers

View Affiliated Supplier Catalogs

Expand your options by becoming informed about other products offered that are designed to work with our equipment.

View Specification Sheets

View specifications on particular products for study at your convenience.

Price and Order

Complementary Products

Take advantage of having pricing, lead time, and specs available on items like specialty roof curbs, etc. to help you figure projects more quickly and more accurately.

Speed Your Business Processes

Request Project Quotes

Save telephone time by submitting project quote requests. Turnaround time is faster and the results more accurate.

Professional Proposal Generator

Build a professional, customized proposal online with the proposal builder. Figure your equipment, material and labor costs, the mark-ups and profits desired, and print the proposal for presentation to our customer.

Marketing and Sales Materials

View Media Schedules, etc.

Learn how to use advertising and trademarks properly. View the advertising schedule to keep up to date on the national campaigns.

Retrofit Manager

Look up older rooftop units to get an understanding of the complexities of replacing the unit.

Tech Support Desk

Avoid the phone by looking up non-cataloged unit information. Find special application data and answers to frequently asked questions.

Training

View Classroom Training Schedules

View a wide assortment of classroom training information and enrollment procedures.

Light Commercial Product Training - Online

Enroll and participate in online courses on Trane Light Commercial equipment like economizer operation, and Trane controls.

Local Connections

View Classroom Training Schedule

See what Trane has in store for classroom training courses.

View Promotions

View local and national promotions which will keep you informed of changes and additions so you won't be caught off-guard.
